## Qatar Airways (Airport / Support Presence)

In the West Palm Beach area, **Qatar Airways does not have a standalone corporate or street-level office**. However, support for travelers in West Palm Beach is typically handled through Qatar Airways' general customer service and via the airport that serves the region:

### Palm Beach International Airport

This is the main airport serving West Palm Beach (PBI). Qatar Airways does **not operate regular scheduled flights nonstop from West Palm Beach**, but many passengers connect from here to Qatar flights via major gateways like Miami (MIA), Fort Lauderdale (FLL), or Orlando (MCO) before flying onward to Doha and beyond. If you need *in-person assistance related to Qatar Airways travel* (e.g., travel agency support for booking, travel documents), it's usually best handled **by phone or online** rather than a local walk-in office in West Palm Beach.
