

# 1-866-829-1086 Southwest Airlines Cape Town Office

Southwest Airlines does *not* have an official office (corporate, ticketing, or customer service) in Cape Town, South Africa. There is no verified Southwest local office in Cape Town city or at **Cape Town International Airport (CPT)** that's officially operated by the airline itself. Southwest's customer support and reservations are managed through its global contact channels rather than through local offices abroad. ([Wikipedia](#))

## Airport Listings vs. Official Office

- Some airport or travel directory sites may list “**Southwest Airlines CPT Terminal**” and describe passenger services (like check-in desks and flight operations) at Cape Town International Airport — but this is **airport service information**, not a Southwest Airlines office or sales counter managed by the airline. ([Terminal Find](#))
- There are *no official Southwest Airlines listings* under the airlines operating or maintaining local offices in Cape Town on the airport's contact page. ([Cape Town Airport](#))

## How to Contact Southwest from Cape Town

Since there's no local Southwest location in Cape Town:

- **Official Southwest website & support:** Use the airline's official site or mobile app to book flights, manage reservations, make changes, and get support.
- **Southwest Customer Service (USA number):** You can call Southwest's main contact number (often **1-800-435-9792** or similar official support lines) — though calls from South Africa will be international and may incur charges. ([Wikipedia](#))

 **Tip:** For real-time flight or check-in assistance at CPT, you'll typically work with the airport's general airline information desks and terminals rather than a Southwest-specific office.

### Summary:

 No official Southwest Airlines office in Cape Town exists.

 Any references you see online to Southwest at CPT relate to airport terminal information, not a dedicated corporate or customer service office. ([Terminal Find](#))

If you'd like, I can provide **the best Southwest Airlines customer support numbers and online contact links** for travelers in South Africa.
