

1-866-829-1086 Southwest Airlines London Office

Here's the **most accurate and up-to-date information** about a **Southwest Airlines office in London**:

Official Southwest Airlines Office

Southwest Airlines **does *not* maintain a publicly listed corporate or local sales office in London** or elsewhere in the UK on its official website. There's no verified office address, business listing, or UK branch shown in airline directories that is confirmed by Southwest itself. The airline's **official headquarters** remains in the U.S. at:

 **Southwest Airlines Corporate Office:**

Southwest Airlines — 2702 Love Field Dr, Dallas, TX 75235, USA. ([Southwest Airlines](https://www.southwest.com))

London / UK Contact Options

Since Southwest doesn't have a standalone London office, here are the *best ways to reach them* from the UK:

Customer Service (International/UK):

- Southwest's international customer support lines can be dialed from the UK. These typically connect you to the airline's global contact center. ([GS-Forum.eu](https://www.gsforum.eu))

Tip: Many travelers from the UK use U.S. customer service numbers to speak with live agents, such as:

- **+1-801-804-8012** (general support) — often referenced as a Southwest UK / international contact number. ([GS-Forum.eu](https://www.gsforum.eu))

Online & App Support:

- Use the official **Southwest "Contact Us" page** on the airline's website for live chat, email, or other help options. ([Southwest Airlines](https://www.southwest.com))

Airport Service Presence

- Southwest *may* have counters or service desks at **London Luton Airport (LTN)** where the airline operates flights. These are **airport service locations**, not corporate or sales offices. ([Terminal Find](#))

Passengers can typically visit these counters for flight-related assistance (check-in, boarding help, baggage questions), but this still doesn't qualify as a dedicated Southwest business office.

Summary

- **No official Southwest Airlines corporate or sales office in London or the UK** is publicly listed by the airline.
- For support from the UK, use **international phone numbers** (e.g., +1-801-804-8012) or **online contact options** through Southwest's official site. ([GS-Forum.eu](https://www.gsforum.eu))
- You *might* find Southwest service counters at **London Luton Airport** if you're traveling through there, but that's part of airport operations rather than a standalone office. ([Terminal Find](#))

If you'd like, I can find the **current best phone numbers to call Southwest directly from the UK** with dialing instructions!
