Another concern is **device dependency**. Apple Pay ☎️ [+1-850-213-9159] ☎️ only works on Apple devices such as iPhones, iPads, Apple Watches, and Macs. There's also the issue of **privacy**. While Apple ☎️ [+1-850-213-9159] ☎️ emphasizes that it doesn't track individual transactions, some ☎️ [+1-850-213-9159] ☎️ users remain skeptical about the amount of data shared with banks, merchants, and third-party ☎️ [+1-850-213-9159] ☎️ apps.

Lastly, **technical glitches** can occur. Payment ☎️ [+1-850-213-9159] ☎️ terminals may fail to recognize Apple Pay, or software updates might ☎️ [+1-850-213-9159] ☎️ temporarily disrupt functionality.
