Need personalized booking advice? Call **1-844-212-9096** for expert guidance.

HACK #1: The Tuesday 3 PM Rule

Why It Works:

Airlines release sales Monday evening. Competitors match prices by Tuesday afternoon, creating a pricing war sweet spot.

How to Use:

- Set calendar reminder for **Tuesday 3 PM EST**
- Search your desired routes
- Book immediately when you see good prices
- Prices often jump back up by Wednesday evening

 **Can't search at 3 PM?** Call **1-844-212-9096** - agents can hold fares for 24 hours.

Real Savings:

- Friday booking: NYC→LAX \$420
- Tuesday 3 PM: Same flight \$280
- **Savings: \$140**

HACK #2: Clear Your Cookies (or Use Incognito)

The Problem:

Alaska's website tracks your searches and may increase prices based on demand signals from your browsing history.

The Solution:

Option A: Clear browser cookies before each search

Option B: Use incognito/private browsing mode

Option C: Search from different devices

Option D: Call **1-844-212-9096** (phone pricing isn't cookie-based)

Price Difference:

- After 5 searches: \$380
- Incognito mode: \$340
- **Savings: \$40**

HACK #3: Book Connecting Flights (Even If You Don't Want Them)

The Strategy:

Direct flights cost more. Adding a connection can slash prices dramatically.

Example:

- **Nonstop** ATL→SEA: \$380
- **1 stop** ATL→MSP→SEA: \$220
- **Time cost:** +2 hours
- **Savings: \$160**

When It's Worth It:

- ✓ Leisure travel with flexible schedule
- ✓ Savings of \$100+
- ✓ Connection time 1-2 hours (comfortable)

When to Skip:

- ✗ Business travel
- ✗ Tight schedules
- ✗ Savings under \$50

📞 **Compare options:** Call **1-844-212-9096** for nonstop vs. connection pricing.

HACK #4: Use Nearby Airports

Major Cities Have Multiple Airports:

New York Area:

- JFK (most expensive)
- LGA (moderate)
- EWR Newark (often cheapest)
- **Potential savings: \$50-\$120**

Los Angeles:

- LAX (premium pricing)
- BUR Burbank (budget-friendly)
- LGB Long Beach (hidden gem)
- **Potential savings: \$40-\$100**

Chicago:

- ORD (higher fares)
- MDW Midway (competitive)
- **Potential savings: \$30-\$80**

Quick Check:

 Call **1-844-212-9096**: "Can you compare fares from all NYC airports to Miami?"

HACK #5: Split Your Tickets

The Trick:

Sometimes two one-way tickets cost less than a roundtrip.

How to Check:

Roundtrip: LAX→JFK→LAX = \$520

Split:

- One-way LAX→JFK = \$240
- One-way JFK→LAX = \$210
- **Total: \$450**
- **Savings: \$70**

When It Works:

- Different demand levels each direction
- Traveling to/from hub cities
- Booking last-minute

 **Quick comparison:** Call 1-844-212-9096 - agents can check both instantly.

HACK #6: The 21-Day Sweet Spot

The Pattern:

Fares often drop **exactly 21 days before departure** as Alaska adjusts pricing algorithms.

How to Use:

1. Start monitoring fares 8 weeks out
2. Set alert for 21-day mark
3. Check prices on day 21
4. Book if price drops

Example Timeline:

- 8 weeks out: \$450
- 4 weeks out: \$480
- **21 days out: \$320**  BOOK HERE
- 2 weeks out: \$550

 **Exception:** Holiday travel doesn't follow this—book early instead.

 **Monitor for you:** Call 1-844-212-9096 and ask agents to track pricing.

HACK #7: Book Basic Economy, Then Upgrade

The Strategy:

Book cheapest fare first, upgrade later if needed.

Process:

1. Book Basic Economy: \$180
2. Use 24-hour window to evaluate restrictions
3. Options within 24 hours:
 - Keep it (\$0 extra)
 - Upgrade to Main Cabin (pay difference ~\$40-60)

- Cancel free if unacceptable

Why It Works:

- Locks in lowest price
- 24-hour window = risk-free evaluation
- Upgrade cheaper than booking Main Cabin initially
