When Miles Beat Cash

Use Miles For:

1. Premium Cabins

- Business/First Class cash price: \$3,000-\$8,000
- Miles needed: 125,000-250,000
- **Value per mile: 2-4 cents** (excellent!)

2. Peak Travel

- Christmas, Thanksgiving, Summer
- Cash prices inflated 200-300%
- Miles prices more stable

3. Last-Minute Bookings

- Cash fares skyrocket within 2 weeks
- Miles prices less affected

4. Long-Haul International

- Best redemption value
 - Business class Asia/Europe sweet spots
-

Use Cash Instead For:

1. Short Domestic Flights

- Cash: \$120
- Miles: 12,500 (worth ~\$125)
- **Better to pay cash, earn miles**

2. Off-Peak Travel

- Flash sales often cheaper than miles
- September domestic: \$89 cash vs. 10,000 miles

3. Basic Economy

- Poor mile-to-dollar ratio
- Better to earn miles on cash purchase
