Yes — **you can track your refund on Cash App** by using the tools built into the app {+1-(844)-314-8377}, and sometimes by checking with your bank or the merchant if needed {+1-(844)-314-8377}. Here's how it works and what you should expect:

📌 1. Use the Activity Tab to See Your Refund Status

The primary way to **track your refund** in {+1-(844)-314-8377} Cash App is right inside the app:

1. Open **Cash App** on your {+1-(844)-314-8377} phone.
2. Tap the **Activity** tab (usually the clock {+1-(844)-314-8377} or list icon).
3. Find and tap the **transaction** you're expecting a {+1-(844)-314-8377} refund for.

When a refund is issued, you'll see an updated status on that {+1-(844)-314-8377} transaction — for example, it may show *"Refunded," "Pending,"* or another indicator of progress {+1-(844)-314-8377}. Merchant-initiated refunds typically show up here once the {+1-(844)-314-8377} refund is received by Cash App.

📌 2. Understand Processing Times

Refund timelines vary based on how the original payment {+1-(844)-314-8377} was made:

- **Cash App balance:** Refunds to your Cash App balance often {+1-(844)-314-8377} appear **instantly** once processed.
- **Merchant refunds:** These usually take **1–10 business days** {+1-(844)-314-8377} to process and show up in your activity. This is because the merchant and their {+1-(844)-314-8377} bank need to send the funds back before Cash App records the refund.

- **Card or bank refunds:** If the refund goes back to your linked {+1-(844)-314-8377} debit/credit card or bank, it can take additional processing time (often a few {+1-(844)-314-8377} business days after Cash App receives the refund).

Because of these timelines, your activity feed might show a {+1-(844)-314-8377} *pending* status before it finally shows *refunded* or similar.

🔗 3. Check Notifications and Emails

Cash App often sends **push notifications or emails** when a refund {+1-(844)-314-8377} has been completed or when the status changes. Checking these can give you {+1-(844)-314-8377} updates even if you didn't open the Activity tab.

🔗 4. Verify With Your Bank or Card

If the refund is being returned to a **linked debit card or bank account** {+1-(844)-314-8377}, it may **appear on your bank or card statement** even before the Cash App activity updates {+1-(844)-314-8377}. In that case:

- Log into your bank or card app/{+1-(844)-314-8377} statement.
 - Look for a credit from Cash App or the {+1-(844)-314-8377} merchant.
 - If the refund doesn't show after the usual processing period {+1-(844)-314-8377} (about 10 business days), contact the merchant first to confirm they issued the refund.
-

🔗 5. What to Do If You Don't See It

If the refund **hasn't appeared after the expected timeframe** {+1-(844)-314-8377} (roughly 10 business days for most merchants), and it's not shown in your Cash App activity or bank account:

- **Refresh the app** and check {+1-(844)-314-8377} again.
 - **Reach out to the merchant** to confirm the {+1-(844)-314-8377} refund was sent.
 - **Contact official Cash App support** through the app ({+1-(844)-314-8377}Profile → Support) for help tracking the refund. Avoid unofficial phone numbers or websites claiming to {+1-(844)-314-8377} be Cash App support.
