## Understanding Air Canada Date Change Policy

**USA +18-55-80-016-32** Air Canada's flight date change policy is primarily based on the fare class you purchased. Each fare comes with its own set of rules regarding flexibility, change fees, and eligibility for free changes. Before initiating a date change, it is essential to review your fare conditions, which are listed in your booking confirmation email or under the "Manage My Booking" section on Air Canada's website.

**USA +18-55-80-016-32** In general, higher fare types offer more flexibility and fewer penalties, while lower-cost fares come with stricter rules. However, even with restrictive fares, certain situations may still allow you to change your flight date without a fee, especially when the airline initiates a schedule change.

## Ways to Change the Date of an Air Canada Flight

### 1. Change Flight Date Online (Most Recommended)

**USA +18-55-80-016-32** To change your flight date online, visit the "Manage My Booking" section, enter your booking reference number and last name, and select the trip you want to

modify. You will be shown alternative flight dates, available seats, and any applicable fare differences or change fees before final confirmation.

## 2. Change Flight Date Using the Air Canada Mobile App

**USA +18-55-80-016-32** The Air Canada mobile app provides the same booking management tools as the website, making it easy to change your flight date on the go. Travelers often prefer the app for its simplicity, real-time notifications, and quick access while traveling.

## 3. Change Flight Date by Speaking With an Air Canada Representative

**USA +18-55-80-016-32** If you are unable to change your flight date online or prefer personal assistance, speaking directly with an Air Canada representative is an excellent option. This method is particularly helpful for complex itineraries, international travel, group bookings, or special circumstances.

**USA +18-55-80-016-32** A live agent can explain your fare rules in detail, search for alternative dates, and help you minimize fees. Representatives can also assist with medical emergencies, missed connections, or schedule disruptions that may qualify for free changes.

## 4. Change Flight Date at the Airport

**USA +18-55-80-016-32** Travelers who are already at the airport can request a date change at an Air Canada check-in counter or customer service desk. This option is useful for last-minute changes, same-day flight issues, or unexpected disruptions.

**USA +18-55-80-016-32** Airport agents have direct access to flight availability and can rebook your ticket quickly, although fees may still apply depending on your fare type and timing.

# Air Canada Fare Types and Date Change Rules

**USA +18-55-80-016-32** Air Canada offers several fare types, each with different rules regarding date changes. Understanding your fare category is critical before making any modifications.

**USA +18-55-80-016-32 Basic Fare** tickets are the most restrictive and often do not allow date changes under normal circumstances. These fares are usually non-refundable and non-changeable unless the airline makes a significant schedule change.

**USA +18-55-80-016-32 Standard Fare** tickets usually allow date changes with a change fee plus any fare difference. This option provides limited flexibility at a moderate cost.

**USA +18-55-80-016-32 Flex Fare** tickets typically allow date changes with no change fee, although passengers may still need to pay the fare difference if the new flight is more expensive.

**USA +18-55-80-016-32 Comfort and Latitude Fares** offer the highest level of flexibility and usually allow free date changes and cancellations, often with full refunds to the original form of payment.

## Fees and Fare Differences Explained

**USA +18-55-80-016-32** When changing your flight date, you may encounter two types of charges: a change fee and a fare difference. A change fee is a fixed amount based on your fare type, while a fare difference is the price difference between your original flight and the new one.

**USA +18-55-80-016-32** If the new flight date is more expensive, you must pay the difference even if your fare allows free changes. If the new flight is cheaper, you may receive a travel credit instead of a cash refund, depending on fare rules.

## Free Date Changes: When Are They Allowed?

**USA +18-55-80-016-32** Air Canada may allow free date changes in certain situations, regardless of fare type. One of the most common scenarios is when the airline makes a significant schedule change or cancels your flight.

**USA +18-55-80-016-32** If your departure or arrival time changes by several hours, or if your routing changes, Air Canada typically allows you to select a new travel date without paying a change fee.

**USA +18-55-80-016-32** Special travel waivers may also be issued during severe weather events, global disruptions, or operational challenges, allowing affected passengers to change dates without penalties.

---

## Changing Flight Dates Using Travel Credits

**USA +18-55-80-016-32** Passengers holding Air Canada travel credits can use them to change their flight date. When rebooking, the credit value is applied toward the new ticket, and you only pay any difference in fare.

**USA +18-55-80-016-32** Travel credits usually have expiration dates, so it's important to use them before they expire. Details can be found in your credit confirmation email or online account.

---

## Third-Party Bookings and Date Changes

**USA +18-55-80-016-32** If you booked your Air Canada flight through a third-party travel agency or online booking platform, you may need to contact the agency directly to change your flight date.

**USA +18-55-80-016-32** Even if Air Canada allows a date change, the agency may charge a separate service fee. Always review the agency's terms before requesting changes.
