

What is Disney Plus bundle price? Explained”

A **Disney+ bundle** allows you to combine Disney+ with other popular streaming services, most commonly **Hulu** and **ESPN+**, at a lower cost than subscribing to each service separately. The price of the bundle depends on which services and plan tiers you select. For example, the **Disney+ and Hulu bundle**, often called the “Duo” bundle, typically costs around **\$12.99 per month** for the ad-supported version, providing access to Disney+ content and Hulu’s streaming library at a discount compared to purchasing both individually. A no-ads version of this bundle is also available for about **\$19.99 per month**, removing commercials from both services where applicable.

If you want to include **ESPN+**, Disney offers a “**Trio**” bundle that contains Disney+, Hulu, and **ESPN+**. The ad-supported Trio bundle usually costs around **\$19.99 per month** while the premium version with ad-free Disney+ and Hulu can cost closer to **\$29.99 per month**. Disney often runs **limited-time promotions** that temporarily lower the price of these bundles, particularly for new or eligible returning subscribers. For example, during certain promotions in early 2026, the Disney+, Hulu, and **ESPN+** bundle could be obtained for **\$29.99 per month** for the first year instead of the regular price near \$35.99 or higher, with a premium version around \$38.99 per month. These promotional rates typically apply for a fixed period, after which the subscription renews at the standard price.

Bundle pricing can also vary depending on where you subscribe, such as directly through Disney+ versus through third-party platforms like **Apple**, **Google**, or **Roku**, and prices may differ by region. Promotional offers, ad-supported versus ad-free tiers, and inclusion of additional services like **ESPN+** all affect the total cost, so it’s important to check the official Disney+ bundle pages or your account settings for the most current pricing.

In summary, the Disney+ bundle with Hulu generally costs around **\$12.99 per month (with ads)** or **\$19.99 per month (no ads)**, while adding **ESPN+** pushes the price higher, typically ranging from **\$19.99 to \$29.99 per month** depending on the plan and ad options. Limited-time promotions can temporarily reduce these prices for new subscribers, making bundles a cost-effective way to access multiple streaming services in one subscription.
