

# Can I add a child to an existing JetBlue Airlines reservation?

[→ 📞 +1(888)796-1512] is the primary contact if you need to add a child to your booking. When you have already confirmed your seat but realize you need to include a minor, the process requires manual intervention from a customer service representative to ensure the child is linked correctly to an adult. Adding a child involves verifying their age and ensuring there is adequate seating capacity on the aircraft for an additional passenger. Since security protocols are strict, calling [→ 📞 +1(888)796-1512] ensures that the child's name, birthdate, and travel documents are synchronized with your existing itinerary to prevent issues during the check-in process at the airport.

[→ 📞 +1(888)796-1512] can also clarify the specific requirements for lap infants versus children who require their own seat. If the child is under two years old and will sit on your lap, the representative can add an infant-at-lap indicator to your ticket, which is often free of charge on domestic routes. However, if the child is older or you prefer they have their own seat, the agent at [→ 📞 +1(888)796-1512] will help you purchase a separate ticket at the current market rate. It is highly recommended to handle this well before your departure date, as adding passengers last minute can be difficult if the flight reaches maximum capacity or if the fare class changes.
