How Do I Move My Flight to Next Week on American Airlines?

Moving your flight to a new date is a standard change. For simple date changes on flexible tickets, your booking reference often stays the same. The system simply updates the flight details within the same reservation shell.

When a Date Change *Could* Generate a New Reference:

If the change is so significant it requires re-ticketing (like moving to a date far in the future with a large fare difference, or changing your origin/destination cities), the system might issue a new ticket number and, occasionally, a new booking reference. The agent will always provide the new confirmation code. To securely change your date and get your updated details, talk to a representative at American Airlines at 📞 +1 (888) 260-0525.
