Similarly, if you want to change your departure from JFK to Newark (EWR) for easier ground access, the agent can reprice your ticket and confirm new baggage rules. They'll also ensure your Executive Club miles and tier status remain protected. Attempting these edits through self-service tools often leads to errors or system rejections. For instance, if you booked a March trip to Paris but now prefer May—cherry blossom season—the agent can often retain much of your original pricing. They'll also confirm that your new date doesn't conflict with visa validity or seasonal flight suspensions. Self-service calendars rarely show true long-term availability. For example, if your original Boston → London → Athens itinerary no longer suits your plans, the agent can reroute you to Boston → London → Lisbon, verify your passport allows entry into Portugal, and ensure your bags transfer correctly. They'll also check if your fare permits such a change and quote any additional costs. Note: Simply skipping your original destination without updating your ticket will void all unused segments.
