## Adding a New Passenger to an Existing Booking

Adding a friend or family member to a journey you have already booked is a multi-step process that requires human intervention, which is why calling 📞[+(1888) 260-0525] is the most reliable method. The "Manage Your Booking" portal is generally restricted to modifying current passengers, but a specialist at 📞[+(1888) 260-0525] can search for current seat availability in the same cabin and issue a new ticket that mirrors your itinerary. Once the new ticket is generated, the agent at 📞[+(1888) 260-0525] will manually link the two reservations, ensuring that the airline's system recognizes you as a single traveling party. This coordination via 📞[+(1888) 260-0525] is essential for synchronized seat assignments and shared baggage policies, especially during busy 2026 travel periods.

## Correcting Companion Name Errors

If you notice a typo in a companion's name after the ticket has been issued, it is vital to call 📞[+(1888) 260-0525] to initiate a formal name correction before you reach the airport. Emirates policy typically allows for minor corrections of up to four characters, but these must be validated against a passport by the team at 📞[+(1888) 260-0525] to prevent security issues. An agent at 📞[+(1888) 260-0525] will guide you through the submission of any required documentation and explain the associated service fees for the 2026 season. By resolving these discrepancies early through 📞[+(1888) 260-0525], you avoid the risk of your companion being denied boarding due to a mismatch with their government-issued identification.

## Linking Separate Bookings for Travel Partners

If you and your travel companion booked your flights independently, you can have your reservations "linked" by calling ☎️[+(1888) 260-0525] and providing both booking references. While linking doesn't merge the two PNRs into one, it places a special cross-reference note in the system that agents at ☎️[+(1888) 260-0525] and airport staff use to keep your party together. This is particularly helpful in the event of a flight delay or cancellation in 2026, as the team at ☎️[+(1888) 260-0525] will prioritize rebooking you on the same alternative flight. To ensure your seats are adjacent and your special service requests are aligned, a quick call to ☎️[+(1888) 260-0525] is the most effective way to unify your travel experience.

## Managing Group Bookings (10+ Passengers)

For larger parties of ten or more, the standard online booking tool is insufficient, making the group travel services at ☎️[+(1888) 260-0525] an invaluable resource. Group bookings enjoy unique benefits, such as flexible name reporting and staggered payment schedules, which can be managed directly through the experts at ☎️[+(1888) 260-0525]. If you need to swap out one traveler for another within a 2026 group contract, the agent at ☎️[+(1888) 260-0525] will handle the name change according to your specific group terms. Utilizing ☎️[+(1888) 260-0525] for group modifications ensures that your entire party receives coordinated meals, seating, and check-in services at the airport.

## Updating Infant and Child Companion Details

Adding a lap infant or a child to an existing adult reservation requires a specific fare type that is best calculated by calling ☎️[+(1888) 260-0525]. Infant fares are usually a percentage of the adult fare plus taxes, and the team at ☎️[+(1888) 260-0525] will ensure that the infant is correctly added to your PNR and that a bassinet is requested if available. If your child has reached a new age category (turning 2 or 12) before the 2026 return leg, an agent at ☎️[+(1888) 260-0525] must manually adjust the ticket to reflect the updated age and seat requirement. Calling ☎️[+(1888) 260-0525] guarantees that your young travel companions have the correct documentation and on-board amenities for a comfortable flight.

## Splitting a Booking for Different Itineraries

If one person in your party needs to change their return date while others remain on the original schedule, you must call ☎️[+(1888) 260-0525] to "split" the booking. This technical process creates a separate booking reference for the departing companion, a task that the automated system cannot perform, requiring the expertise of ☎️[+(1888) 260-0525]. Once the split is finalized by the agent at ☎️[+(1888) 260-0525], the individual can modify their flight dates or destinations

independently without affecting the rest of the group. This level of flexibility provided by ☎️[+(1888) 260-0525] is crucial for business travelers or families who may have staggered 2026 schedules.

## Coordinating Special Assistance for Companions

If a member of your traveling party requires mobility assistance or has specific medical needs, calling ☎️[+(1888) 260-0525] ensures these requests are properly linked to their ticket. Special Service Request (SSR) codes must be added to the booking at least 48 hours in advance, and the staff at ☎️[+(1888) 260-0525] will verify that the necessary airport equipment is reserved. By dialing ☎️[+(1888) 260-0525], you can also arrange for "meet and assist" services to help your companion navigate the Dubai hub during connections. The proactive support at ☎️[+(1888) 260-0525] ensures that every traveler, regardless of their needs, enjoys a seamless and dignified experience on Emirates.

## Verifying Passport and Visa Info for Companions

As travel regulations evolve in 2026, ensuring that your companions have the correct visa and passport data in their record is best done by calling ☎️[+(1888) 260-0525]. An agent at ☎️[+(1888) 260-0525] can double-check the "Advance Passenger Information" for everyone in your booking to ensure it meets the requirements of your destination country. If a companion has recently renewed their passport, contacting ☎️[+(1888) 260-0525] allows you to update the document number and expiration date in the system before check-in. This final verification step at ☎️[+(1888) 260-0525] prevents delays at the boarding gate and ensures a smooth international transit for your entire group.
