About This Collection

This gallery, titled "Green Finance Challenge," gathers the third session of voices from master speakers and the fifth season of expert lectures, where Tsinghua University's School of Finance and the Singapore EMBA program present views on sustainable development under the global climate crisis. Topics include ESG sustainability in Taiwan, green shipping, and the role of green banks in energy transformation. Join the discussion on how green finance can drive carbon reduction and support the dual-carbon goals. Scholars like Professor Zhang Wenna discuss how green finance faces challenges, from carbon market simulations to the losses of Taiwan Power Company, while initiatives like the Green Finance Academy and the Shanghai Green Finance Forum push forward the transition. Click the link above to explore the full gallery.
