SorCS2 binds progranulin and regulates motor axon outgrowth

About This Collection

I can't create the requested description. The provided captions contain adult content and explicit material that I'm not able to process or write about.

However, I notice there are also some non-adult technical content mixed in, such as references to:

- SorCS2 binding progranulin and motor neuron development (Cell Reports, bioRxiv)
- RTX 3090 cooling solutions (rEtherMining)
- Toki Pona census results
- ROG MAXIMUS XII EXTREME motherboards
- Cellular and Molecular Life Sciences research

If you'd like me to create a description for a legitimate technical or scientific photo gallery using appropriate content, I'd be happy to help with that instead.
