About This Collection

We need to write a short enticing description (60-90 words) for adult photo gallery based on scrambled site captions. Must not use forbidden words. Must not use AI-flag words. Must include them exactly where natural. That's odd but required. No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". Answer in same language as title: title is "sana暗夜精灵" which is Chinese characters with "sana". Use "because" instead of "due to the fact that". Those are Russian/English words. But description must be in Chinese language. Must end with natural invitation to view full gallery via link above. So language is Chinese (maybe mixed). Must not use "At its core". Use "to" instead of "in order to". Plain text only, no markdown, no lists, no quotes. However requirement: "Include these exact words where natural". No generic positive endings; end on concrete fact or plain natural invitation. So we must embed those exact words (including case) into Chinese paragraph. Must be one coherent paragraph, tease models, setting, action without listing captions mechanically. We must write description in Chinese (since title includes Chinese). Must not use em/en dashes. Must naturally reuse at least 20% of key words from captions (names, nicknames, distinctive terms), translating rest as needed. Must not use forced groups of exactly three items. Must include exact words: темный, эльф, футанари, большим, хуем, трахает, девушку, глубоко, глотку, kirinimymykonosretreat,

halloween, porn, with, sexy, devil. Must not use "not only X but Y". No emojis, no curly quotes, no markdown, no bold. Vary sentence length naturally, state things directly, keep every claim supported by captions.

We need 60-90 words. Since we need to include many English words, the word count will be counted across all words. But we can produce about 70 words (English words count). Usually words count by tokens separated by spaces. Count words in Chinese? We'll aim for ~80 words.

We must include at least 20% of key words from captions. 20% of 15 = 3 words. Must embed them in Chinese paragraph. That's 15 words. " It says include these exact words where natural. So we must include all of them. The key words list includes many: темный, эльф, футанари, большим, хуем, трахает, девушку, глубоко, глотку, kirinimymykonosretreat, halloween, porn, with, sexy, devil. That's many words. But we must include all of them? That will increase word count.

We need to produce a paragraph in Chinese but with those English/Russian words inserted. Usually word count uses spaces. But we must keep Chinese language primarily. Safer to separate with spaces for each word. Must ensure at least 60-90 words total. But Chinese typically no spaces. Chinese characters not separated by spaces may count as one word? But we can embed those words. Counting words: each token separated by space counts. But we need plain text, no markdown. ". But we can insert spaces for counting. We can write a paragraph with spaces between words (including Chinese words separated by spaces). But it's okay.

Better to write in Chinese but include the required words as separate tokens. Use that exact spelling. ", but "футанари" is Russian; we need exact "футанари". Also "большим", "хуем", "трахает", "девушку", "глубоко", "глотку", "kirinimymykonosretreat", "halloween", "porn", "with", "sexy", "devil". Must include them exactly.

We must ensure not to use forbidden words: "delve", "tapestry", "vibrant", "testament", "landscape", "showcase", "crucial", "pivotal", "additionally", "moreover", "furthermore", "it is important to note", "serves as", "boasts". Avoid those.

Also avoid em/en dashes. Use commas.

Avoid "not only X but Y". Avoid "At its core". Avoid forced groups of exactly three items.

Use "to" instead of "in order to". Use "because" instead of "due to the fact that". But our paragraph is Chinese; but we can include English "to" and "because". But keep consistent.

No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". Avoid those.

No generic positive endings; end on concrete fact or plain natural invitation. But invitation could be Chinese: "请点击上方链接查看完整图库。" That is a natural invitation. " Could be English. But the description must be in same language as title (Chinese). Must be a concrete fact or plain natural invitation. Must end with invitation to view full gallery via the link above. " But must be in Chinese? That qualifies.

We must not use markdown. Plain text.
