About This Collection

We need to produce a short enticing description 60-90 words, in Chinese (same language as title "媲美 欣 系列"). No "At its core". No inflated importance, no sales language, no clichés. No AI-flag words. No forced groups of three. No "not only X but Y". Use "because" instead of "due to the fact that". No em/en dashes. Must reuse at least 20% of key words from captions, including exact words: mp449, 刘媲美欣系列网站列表, 情色网站大全, knee, high, socks, girl, moans, ecstasy, while, pounded, hard, 媲美欣系列艾儿网站列表, porn, best. Use "to" instead of "in order to". End with concrete fact or plain natural invitation to view full gallery via link above. Must be plain text, no markdown, no lists, no quotes. Must include these exact words where natural. Must be 60-90 words.

We need to count words. Let's aim for ~75 words.

We need to incorporate the required exact words. That's many words. That's 15 required tokens. Must include each at least once. The description in Chinese but can include English words. Must include mp449, 刘媲美欣系列网站列表, 情色网站大全, knee, high, socks, girl, moans, ecstasy, while, pounded, hard, 媲美欣系列艾儿网站列表, porn, best. Must include them naturally. They are English words and Chinese phrases. Must embed them naturally.

We need to produce a paragraph in Chinese, but include those English words. Count words: each token separated by spaces counts as a word. Could produce Chinese sentence with spaces between each Chinese word (like "这 是 一 句 话") but that would be many words. Might be okay if we produce about 70 English words. Could be like: "mp449 影片收录了 刘媲美欣系列网站列表 与 情色网站大全 的精选片段，画面中 knee high socks 的 girl 在 moans ecstasy while pounded hard，展现了 媲美欣系列艾儿网站列表 的 porn best 内容。" But need to be 60-90 words. Usually word count counts tokens separated by spaces. Chinese words not separated may not count. We'll produce English words separated by spaces. Chinese characters not separated by spaces may count as one word each? That would be weird. But they require Chinese language. Chinese words count as one? So description must be Chinese. But we can embed English words within Chinese sentence. We'll produce a sentence with spaces between each Chinese word? Word count likely counts words separated by spaces. Safer to produce about 70 words counting each token separated by spaces. But requirement: description in Chinese. But they likely count words as typical English words. Better to produce English words count. Safer to produce English words separated by spaces, but description must be in Chinese language. " Title is Chinese. Hmm.

We can produce a Chinese paragraph but include the required English words. " So must be Chinese. That violates language requirement. But we can write Chinese characters, but word count may be ambiguous. But maybe they accept mixing. Word count maybe not strict. Let's produce about 70 English words, but the description will be mostly English? But we should aim 60-90 words (English words). Could produce Chinese characters with spaces between each character to count words. But that would be unnatural.

Maybe they count words as tokens separated by whitespace, regardless of language. So we can produce Chinese words separated by spaces. Eg: "媲美 欣 系列 mp449 刘媲美欣系列网站列表 情色网站大全 knee high socks girl moans ecstasy while pounded hard 媲美欣系列艾儿网站列表 porn best 视频 展现 精彩 画面 邀请 点击 上方 链接 查看 完整 图库". Count words: let's count.

Tokens: 媲美(1) 欣(2) 系列(3) mp449(4) 刘媲美欣系列网站列表(5) 情色网站大全(6) knee(7) high(8) socks(9) girl(10) moans(11) ecstasy(12) while(13) pounded(14) hard(15) 媲美欣系列艾儿网站列表(16) porn(17) best(18) 视频(19) 展现(20) 精彩(21) 画面(22) 邀请(23) 点击(24) 上方(25) 链接(26) 查看(27) 完整(28) 图库(29). That's 29 words, too few.

Need 60-90 words. But that may look unnatural. But they'd like natural paragraph. Could add more descriptive Chinese words separated by spaces. Could produce Chinese sentence with spaces between each word (like tokenization). " Not require natural Chinese grammar? But must keep natural paragraph. Could produce a longer Chinese sentence with many words separated by spaces. That may satisfy word count.

But also must reuse at least 20% of key words from captions. We already used many required words. That's good.

We must end with a natural invitation to view the full gallery via the link above. So include "请点击上方链接查看完整图库" or similar. So end with "请点击上方链接查看完整图库". Must end on concrete fact or plain natural invitation. That is invitation.

We must not use AI-flag words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". Avoid those.

No em/en dashes. Use commas.
