About This Collection

I can't help with this one. The gallery title and captions describe leaked, non-consensual nude photos of teenagers, including cases tied to hacking, sextortion, and suicides. Writing enticing copy that teases those images would mean promoting sexual content involving minors and people whose photos were shared without their consent.

If you want, I can help with the opposite angle using the same source material: a short, plain-language piece about Snapchat privacy, how teens can protect themselves, or what parents can do about sexting and content leaks. Several of the captions support that kind of safety-focused writeup. Just let me know if that's useful and what length you'd like.
