About This Collection

We need to produce a short enticing description (60-90 words) for an adult photo gallery based on scrambled site captions. We must reuse at least 20% of the key words from the captions (names, nicknames, distinctive

terms). Must include these exact words where natural: from, tesla, nvidia, digital, twins, complexity, solver, смотрите, какая, машина, новый, model, рестайлинг, long, range.

We must not use prohibited words. It's lower case but language is English. No emojis. Title is English? Must be plain text, no markdown, no lists, no quotes. Must be in same language as title "tesla car digital twin". So description must be English.

We must not use "delve", "tapestry", "vibrant", "testament", "landscape", "showcase", "crucial", "pivotal", "additionally", "moreover", "furthermore", "it is important to note", "serves as", "boasts". No "not only X but Y". Also no em or en dashes. Use "because" instead of "due to the fact that". Use "to" instead of "in order to". No forced groups of exactly three items. No "At its core". No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". No generic positive endings; end on a concrete fact or a plain natural invitation.

We must end with a natural invitation to view the full gallery via the link above. So something like "See the full gallery above" or "View the full gallery via the link above". Must be plain text, no markdown.

We need to include the exact words: from, tesla, nvidia, digital, twins, complexity, solver, смотрите, какая, машина, новый, model, рестайлинг, long, range. Those are a mixture of English and Russian.). Probably case-insensitive but we should match exactly: "from" lower case, "tesla" lower case, "nvidia" lower case, "digital" lower case, "twins" lower case, "complexity" lower case, "solver" lower case, "смотрите" Russian lower case, "какая" Russian, "машина" Russian, "новый" Russian, "model" lower case, "рестайлинг" Russian, "long" lower case, "range" lower case.

We must embed them naturally in sentences. " That includes from, tesla, nvidia, digital, twins, complexity, solver. Good.

Then we need to include Russian words: "смотрите, какая машина : новый model рестайлинг long range". The phrase "смотрите," includes a comma after the word. However they wrote "смотрите," with a comma as part of the list separator. The word "смотрите," includes comma after? But they likely intend the word "смотрите" (without punctuation). They gave list with commas separating items. The required words: "смотрите," includes a comma? Safer to include the word "смотрите" without extra punctuation attached, but we can include a comma after it as part of sentence punctuation. The phrase includes a comma in the caption: "Смотрите, какая машина : новый Tesla Model X I Рестайлинг Long Range 2023 го". " So they expect each word without punctuation? Hard to know. So we need to include the words exactly as shown: "смотрите", "какая", "машина", "новый", "model", "рестайлинг", "long", "range". The exact word "смотрите," includes a comma after? The list of required words includes "смотрите," with a comma? Possibly: "Смотрите, какая машина : новый model рестайлинг long range". Must include exactly "смотрите," with comma? " The commas in the list are separators, not part of the words. We'll embed them.

" This includes "Смотрите," with a comma after? We'll include exactly "Смотрите" (capital S due to sentence start). Actually we have "Смотрите," then space then "какая". The word itself is "Смотрите". Starting a sentence with capital may change it. The required word is lowercase "смотрите". Safer to not start sentence with that word; embed it mid-sentence lowercase. Likely acceptable. That includes the word "Смотрите" with a comma attached after it. Eg: "... Might be considered not exact. The comma is punctuation, not part of the word. " But that seems awkward.

We could put it inside quotes? и смотрите, какая машина : новый model рестайлинг long range". The word "смотрите" is lowercase, preceded by a comma and space. No quotes allowed. We could use it after a comma: "... That starts with lowercase after a comma and space. That should be fine.

Thus we need to embed all required words somewhere in the description.

We also need to keep description 60-90 words. Let's craft about 70 words.

We must avoid prohibited words. Avoid "tapestry". Avoid "vibrant". Avoid "pivotal". Avoid "additionally". Avoid forced groups of exactly three items. Avoid "moreover". Avoid "crucial". Avoid "furthermore". Avoid "unforgettable". Avoid "breathtaking". Avoid "landscape". Avoid "it is important to note". That's fine. Avoid "at its core". Avoid "not only X but Y". Avoid "nestled". Avoid "showcase". Avoid "boasts". So we must not have exactly three items in a list. Also avoid "and" repeated? Avoid "delve". Avoid "testament". We'll avoid enumerations.
